

# CS-Cart

With the installed CS-Cart plugin, your customers will be able to pay with you through the Sberbank payment page. You can see an example of how the plugin works on the demo version. Purchases are only available under the administrator role.

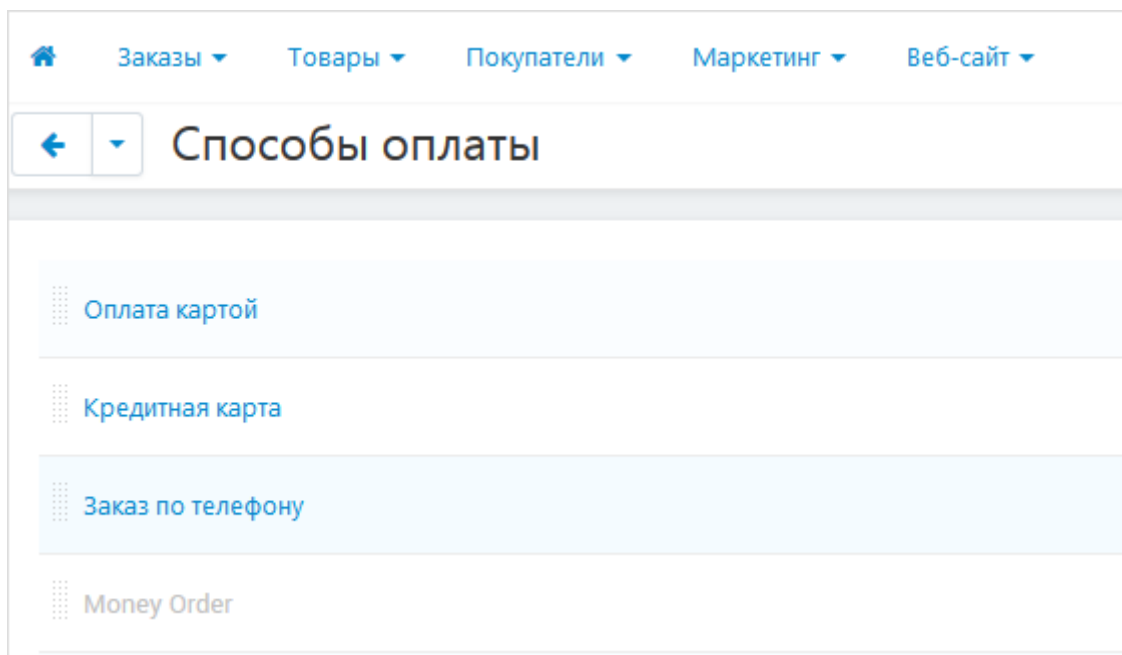

[Download plugin for CS-Cart](#)

The payment plugin was tested for compatibility with CS-Cart version 4.6.x.

## Installation

To install a payment plugin for CS-Cart, follow these steps.

1. Unpack the plugin archive.
2. Place the contents of the upload folder in the directory of your site.
3. Log in to your site.
4. In the admin panel at the top, select **Add-ons > Manage add-ons**.  
The following page will be displayed.

In the CS-Cart interface, modules that extend the site's functionality are called «add-ons». In this description, the term «plugin» is used.

5. Above the list of add-ons, click on the button **View all available add-ons**.
6. In the list below, find the item **RBSpayment** (see image below).

	<b>Quickbooks</b> Интеграция с сервисом Quickbooks ВЕРСИЯ 1.0   <a href="#">CS-CART</a>	<a href="#">Установить</a>
	<b>RBSPayment</b> Прием платежей банковскими картами [RBSPayment] ВЕРСИЯ 2.1	<a href="#">Установить</a>
	<b>RSS-лента</b> Генерирует RSS-ленту для товаров и записей в блоге ВЕРСИЯ 1.0   <a href="#">CS-CART</a>	<a href="#">Установлен</a>

- Click on the **Install** button opposite this item.  
If the installation is successful, the following message will be displayed.

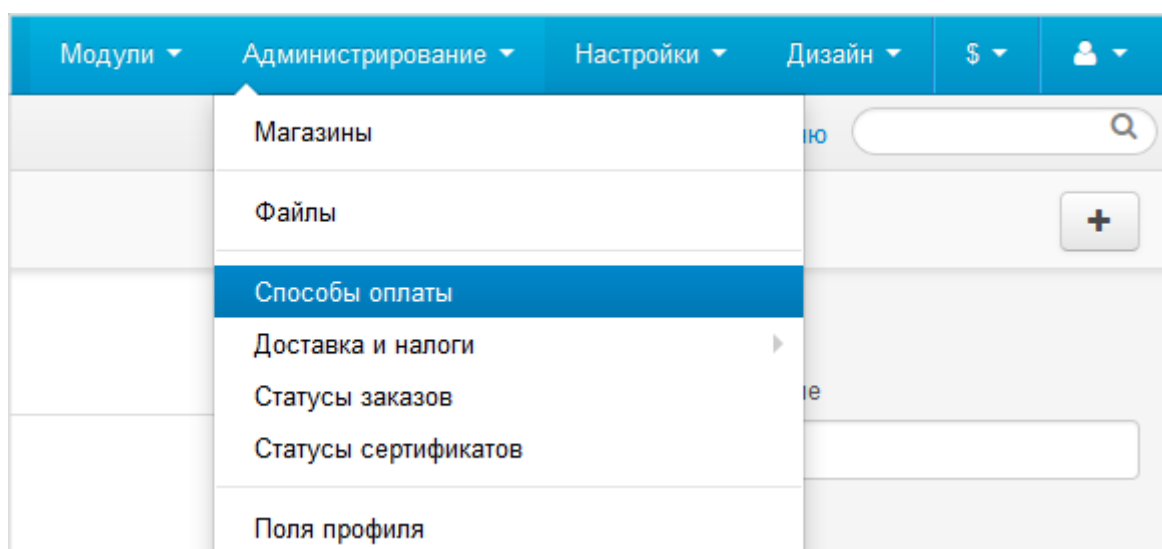

The payment plugin is installed.

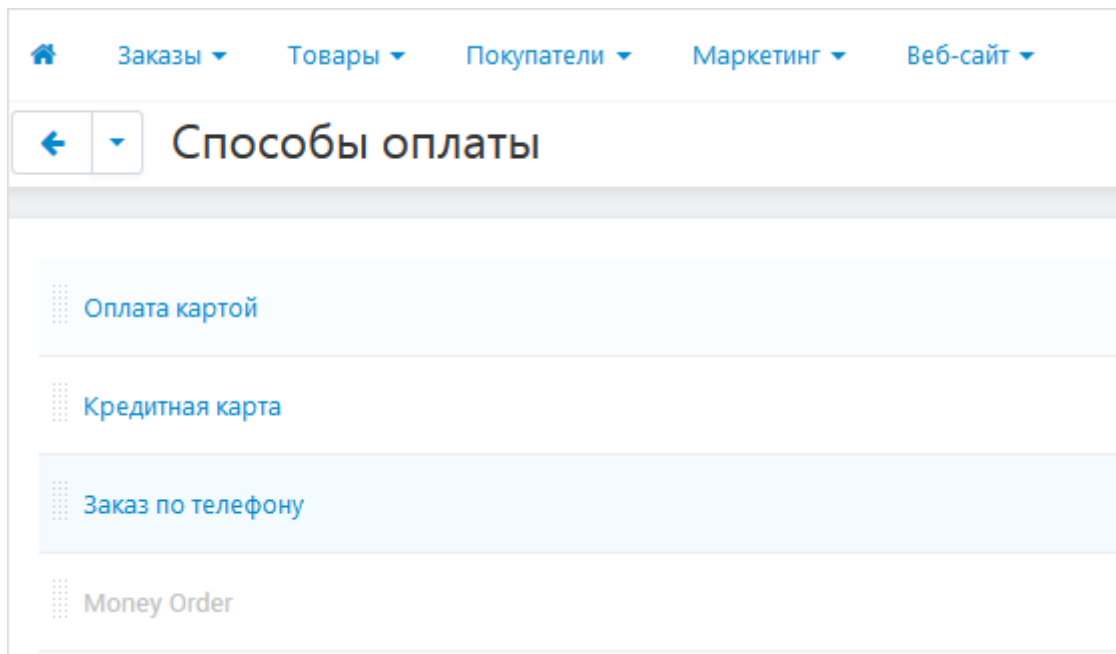

## Configuration

To set up a payment module, follow these steps.

- Sign in to your site.
- In the admin panel at the top, select **Administration > Payment Methods** (see image below).

The following page will be displayed.

3. Click on  (Add payment method) opposite the title **Payment Methods**.  
The settings page will be displayed.
4. Configure the settings referring to the table below.

The description contains only those settings that relate directly to the payment plugin. The rest of the settings are related to the content management system (CMS).

Configuration	Description
<b>Name</b>	Enter the name of the payment method that will be displayed in the CS-Cart interface.
<b>Processor</b>	Select <b>RBSPayment</b> in the list.
<b>Status</b>	The toggle button is located at the bottom of the form. Make sure to select <b>On</b> .

5. Click on the **Configure** button at the top of the settings form. This button appears after selecting a processor (see setting up **Processor** in table above).  
The page for adding a payment method will be displayed.
6. Configure the settings using the table below.

Configuration	Description
<b>Login</b>	Login of a service account in a payment gateway with a suffix <b>-api</b> . If the plugin is running in test mode, you should specify the login for the test user account. If the plugin is running in production mode, you should specify the password for the production user account.
