

# Drupal

With the installed plugin for Drupal, your customers will be able to pay with you through the payment page of «Sberbank». For the payment plugin to work, the Drupal Commerce module must be preinstalled in Drupal.

In the Drupal interface, add-ons are called «modules». The payment plugin falls into the same category, however the term «plugin» is used in this description.

[Download plugin for Drupal 8.x 2.x](#)

[Download plugin for Drupal 7.x 1.13](#)

## System requirements

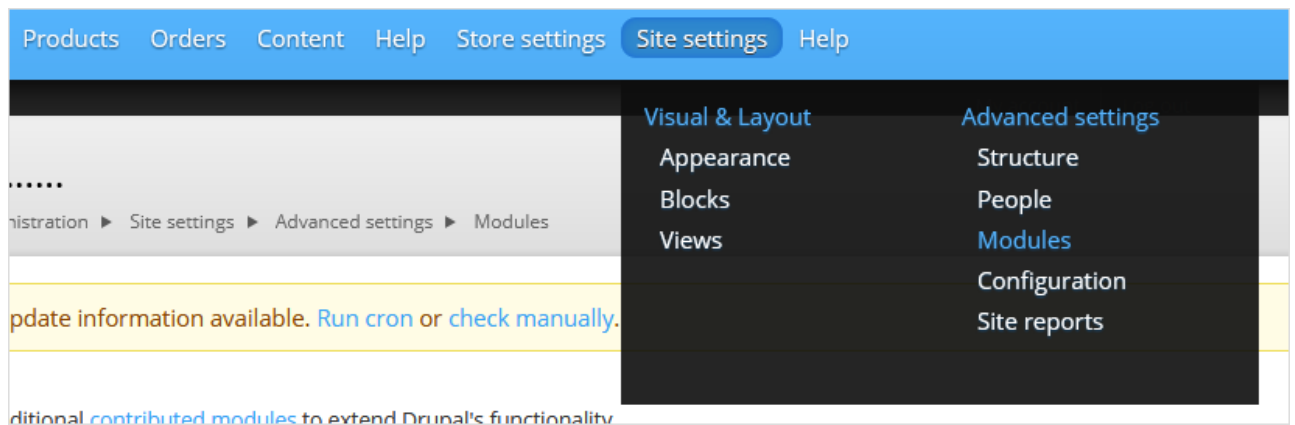

The payment plugin was tested on the following versions of Drupal and the Drupal Commerce module.

Drupal version	Drupal Commerce version	Links to instructions
7.x	1.13	<ul style="list-style-type: none"><li>• <a href="#">Installation</a></li><li>• <a href="#">Configuration</a></li></ul>
8.x	2.x	<ul style="list-style-type: none"><li>• <a href="#">Installation</a></li><li>• <a href="#">Configuration</a></li></ul>

## Installing the plugin for Drupal 7.x Drupal Commerce 1.13

To install the payment plugin for Drupal, follow these steps.

1. Unpack the archive and place the plugin folder in the following path:  
<site folder>\modules\.
2. Sign in to your online store website.
3. In the top bar of the site, select **Site settings** > **Advanced settings** > **Modules** (see image below).

The following page will be displayed.

Download additional [contributed modules](#) to extend Drupal's functionality.

Regularly review and install [available updates](#) to maintain a secure and current site. Always run the [update script](#) regularly.

## Установить новый модуль ☆

[Главная](#) » [Администрирование](#) » [Расширение](#)

Installing modules and themes requires **FTP access** to your server. See [Extending Drupal](#)

Вы можете найти [модули](#) и [темы](#) на [drupal.org](#). Поддерживаются следующие тип

### Установить с URL-адреса

Пример: `https://ftp.drupal.org/files/projects/name.tar.gz`.

Or

### Загрузите архив модуля или темы для установки

No file selected.

Для примера: `name.tar.gz` на вашем локальном компьютере

Установить

- In the **Upload a module or theme to install** field, click on the **Browse** button and specify the path to the plugin file.  
If the installation is successful, the following message will be displayed.

# Название сайта

## Менеджер обновления

✓ Установка успешно завершена.

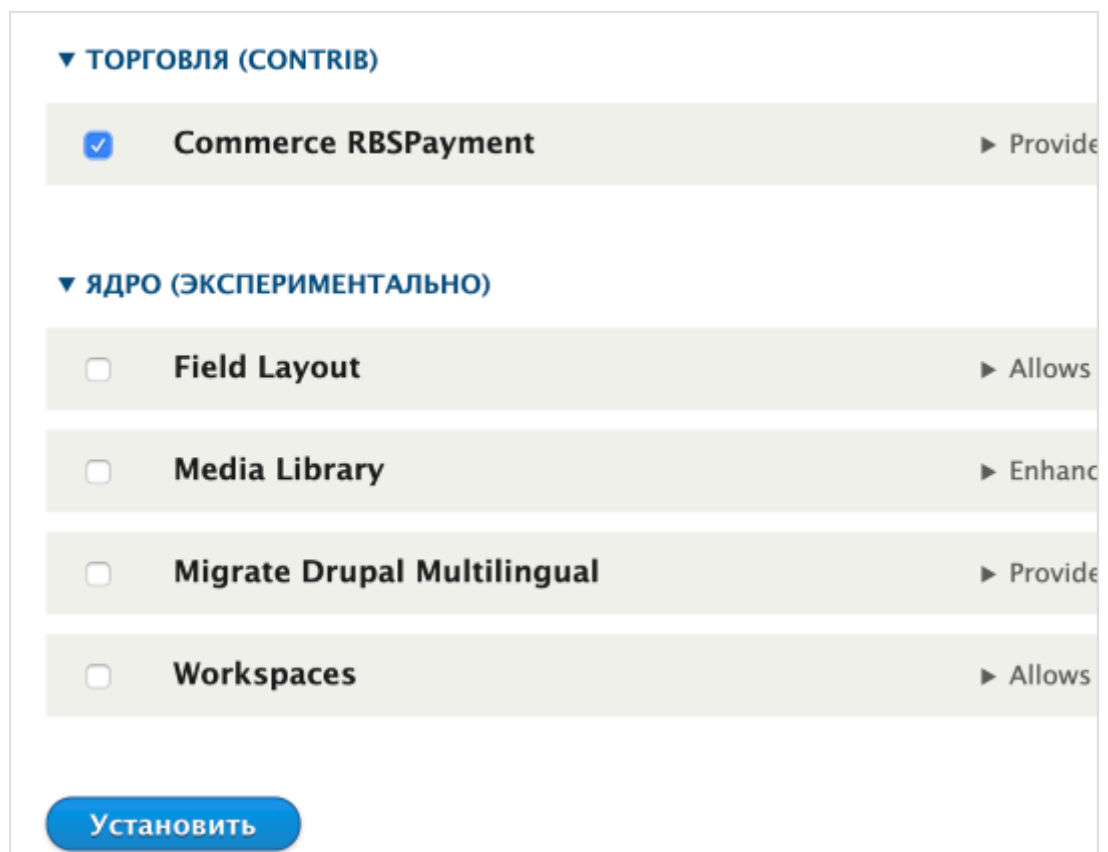

### commerce\_rbspayment

- Установка *commerce\_rbspayment* успешна

### Следующие шаги

- [Установить другой модуль](#)
- [Включить недавно добавленные модули](#)
- [Страницы администрирования](#)

4. Enable the installed module - **Commerce RBSPayment** (see image below).

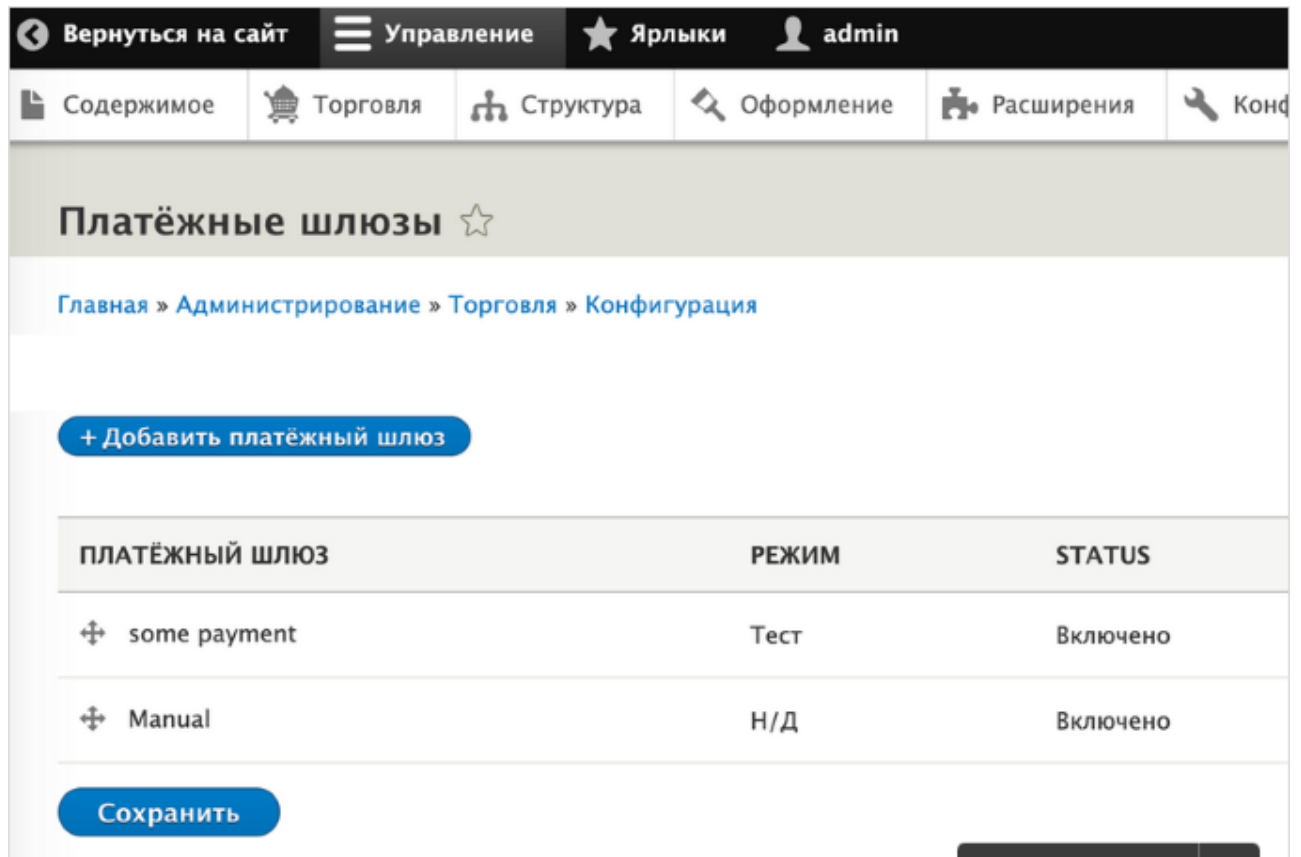

# Configuring the plugin for Drupal 8.x Drupal Commerce 2.x

To configure the plugin, follow these steps.

1. From the top menu select **Manage> Commerce>Configuration> Payment> Payment gateways**.

The following page will be displayed.

The screenshot shows the Drupal Commerce 2.x administration interface. The top navigation bar includes links for 'Вернуться на сайт', 'Управление', 'Ярлыки', and the user 'admin'. Below this is a secondary menu with 'Содержимое', 'Торговля', 'Структура', 'Оформление', 'Расширения', and 'Конф'. The main content area is titled 'Платёжные шлюзы' with a star icon. A breadcrumb trail reads 'Главная » Администрирование » Торговля » Конфигурация'. A blue button '+ Добавить платёжный шлюз' is positioned above a table. The table has three columns: 'ПЛАТЁЖНЫЙ ШЛЮЗ', 'РЕЖИМ', and 'STATUS'. It contains two rows: one for 'some payment' in 'Тест' mode, and another for 'Manual' in 'Н/Д' mode, both with a status of 'Включено'. A blue 'Сохранить' button is at the bottom left.

ПЛАТЁЖНЫЙ ШЛЮЗ	РЕЖИМ	STATUS
+ some payment	Тест	Включено
+ Manual	Н/Д	Включено

2. Click on the **Add payment gateway** button.  
The following page will be displayed.

## Добавить платёжный шлюз ☆

3. Select **RBSPayment**
4. Configure the settings using the table below.

The description contains only those settings that relate directly to the payment plugin. The rest of the settings are related to the content management system (CMS).

Configuration	Description
<b>Display name</b>	Payment method name, for example: <b>Payment by credit card</b> .
<b>Mode</b>	Allows you to set the plug-in operation mode: test or live (working). <ul style="list-style-type: none"><li>◦ If the plugin is running in test mode, in the respective fields (<b>Login</b> and <b>Password</b>) you should specify the data of the test service account.</li><li>◦ If the plugin works in the live mode, in the respective fields (<b>Login</b> and <b>Password</b>) you should specify the data of the live service account.</li></ul>
<b>Login-API</b>	Login of a service account in a payment gateway with a suffix <b>-api</b> . If the plugin is running in test mode, you should specify the login for the test user account. If the plugin is running in production mode, you should specify the password for the production user account.
<b>Password</b>	The password for the service account in the payment gateway. If the plugin is running in test mode, you should specify the password for the test user account. If the plugin is running in standard (production) mode, you should specify the password for the production user account.
<b>Two-phase payments</b>	Allows you to set the staging of payments – payments can be one-phase (do not require confirmation from the merchant) or two-phase (for the successful completion of the payment, the merchant must complete it, before that the funds will be held on the buyer's account).

Configuration	Description
<b>Send cart data</b>	Allows you to choose whether the shopping cart will be sent and whether a sales receipt will be generated. To be able to use this functionality, please contact your bank representative. For more details see <a href="#">section on compliance with law 54-FZ</a> .
<b>Taxation scheme</b>	<p>Tax system. The following values are available:</p> <ul style="list-style-type: none"> <li>◦ <b>General;</b></li> <li>◦ <b>Simplified, income;</b></li> <li>◦ <b>Simplified, income minus expenses;</b></li> <li>◦ <b>Unified tax on imputed income;</b></li> <li>◦ <b>Unified agricultural tax;</b></li> <li>◦ <b>Patent tax system.</b></li> </ul> <p>This setting is applied only if you have configured fiscalization parameters – see details in <a href="#">section on compliance with law 54-FZ</a>.</p>
<b>Fiscal documents format</b>	<p>The list allows you to specify the used format of fiscal documents, the following options are available:</p> <ul style="list-style-type: none"> <li>◦ <b>FFD 1.0</b></li> <li>◦ <b>FFD 1.05</b></li> </ul> <p>The format of the version must match the format selected in the personal account of the bank and in the account of the fiscalization service.</p>
<b>Payment type</b>	<p>Payment type. Possible values:</p> <ul style="list-style-type: none"> <li>◦ <b>Full pre-payment before the delivery date of the payment object.</b></li> <li>◦ <b>Partial pre-payment before the delivery date of the payment subject.</b></li> <li>◦ <b>Advance payment.</b></li> <li>◦ <b>Full payment at the time of transfer of the subject of payment.</b></li> <li>◦ <b>Partial payment for the settlement item at the time of its transfer with subsequent payment on credit.</b></li> <li>◦ <b>Transfer of the subject of payment without payment at the time of its transfer with subsequent payment on credit.</b></li> <li>◦ <b>Payment for the subject of the settlement after its transfer with payment on credit.</b></li> </ul> <p>The settings are effective only if the format of fiscal documents of version 1.05 and higher is selected.</p>

Configuration	Description
<b>Type of item being paid for</b>	<p>Type of item being paid for. Possible values:</p> <ul style="list-style-type: none"> <li>◦ <b>Product.</b></li> <li>◦ <b>excisable product.</b></li> <li>◦ <b>Work.</b></li> <li>◦ <b>Service.</b></li> <li>◦ <b>Gambling bet.</b></li> <li>◦ <b>Lottery ticket.</b></li> <li>◦ <b>Intellectual property.</b></li> <li>◦ <b>Payment.</b></li> <li>◦ <b>Agent's fee.</b></li> <li>◦ <b>Several subjects.</b></li> <li>◦ <b>Other payment subject.</b></li> </ul> <p>The settings are effective only if the format of fiscal documents of version 1.05 and higher is selected.</p>
<b>Write log file</b>	Allows you to enable or disable event logging.
<b>Status</b>	Determines if the plugin is enabled.

5. Save your changes.
