

PrestaShop

With the installed plugin for PrestaShop, your customers will be able to pay with you through the Sberbank payment page.

[Download plugin for PrestaShop 1.5.x](#)

[Download plugin for PrestaShop 1.6.x](#)

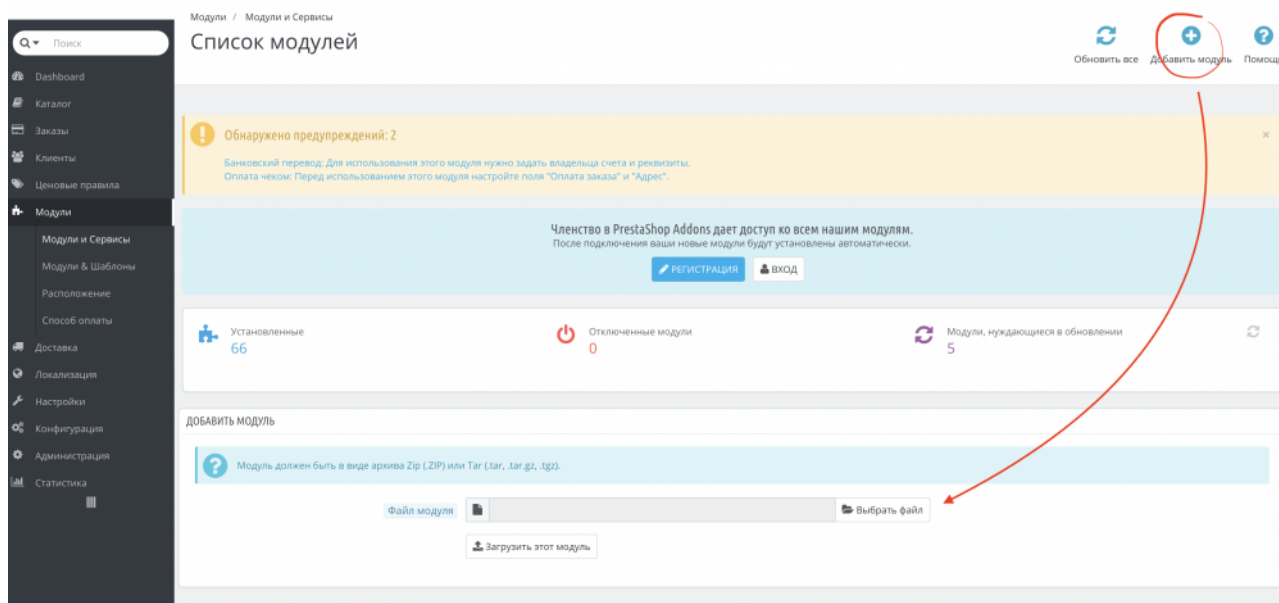

[Download plugin for PrestaShop 1.7.x](#)

The instructions for installing and configuring the plugin for PrestaShop version 1.7.x are given as example.

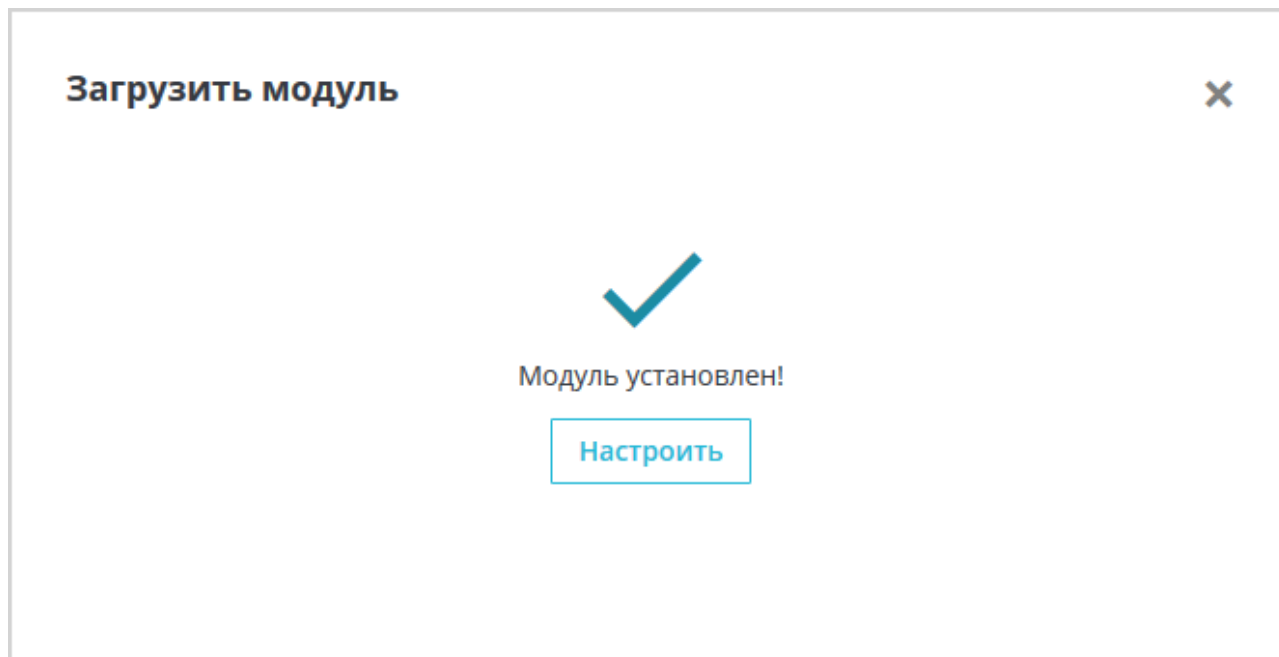

Installation

To install the payment plugin, follow these steps.

1. Log in to your PrestaShop admin panel.
2. In the left pane, select **Modules> Modules and Services** (see image below).

3. Click on the **Upload a module** button in the upper right corner.
 4. Drag the archive with the plugin to the dotted area or use the **select file** link to specify the path to the archive with the plugin.
- After successful installation, the following message will be displayed.

5. To configure the module after installation, click on the **Configure** button (see [description below](#)).

Configuration

To set up a payment plugin, follow these steps.

1. In the PrestaShop admin panel select **Modules> Modules and Services**
2. Select the **Installed modules** tab
3. Find the **Payment by bank card** module in the list of installed modules

You can also search for the phrase «payment by credit card».

4. Click on the **Configuration** button opposite the installed module.
The following page will be displayed.
