# Payment via SberPay

This service will allow you to increase the number of successful sales on the site due to a faster and more convenient payment method. Buyers will be able to quickly and securely pay for the order in the **Sberbank Online** mobile app instead of entering card details.

To connect the service, no additional modifications are required if you have Sberbank acquiring connected. The **SberPay** button appears on the card data entry page.

You can leave a request for connection to **SberPay** at

https://www.sberbank.ru/ru/s_m_business/bankingservice/sberpay .

For implementation of **SberPay** within the current `merchant id` (MID) a separate terminal number is created for this type of payment.
