

Editing Merchant ID for Apple Pay

After creating a Merchant ID in the Apple Partner Center, you must specify the value of this ID in the personal account of the payment gateway. To do this, follow these steps.

1. In the top panel of your personal account, select **Administration> Certificates> Apple Pay Certificates**.
2. In the list of key pairs, check the pair for which you received a certificate from the Apple Partner Center.
3. In the section **Working with keys** above the table, click on the button **Edit appleId** – a window for entering the Merchant ID will be displayed.
4. In **Merchant Apple Id** field enter the Merchant ID you received from the Apple Partner Center and click **Save**.
