

Fiscalization options

The **Fiscalization options** section allows you to specify the fiscal data operator who will register the merchant's receipts. To specify a fiscal data operator, follow these steps.

1. Log in to personal account.
2. In the left pane, select **Settings> General** (see image below).

3. By default, the page will display a **Fiscalization** tab (see image below).

4. In the dropdown **OFD system** select the required fiscal data operator, the following options are available:
 - **ATOL**;
 - **Business.Ru**;
 - **Evotor**. The form of fiscalization settings will be displayed (see the image below).

ОФД система	Evotor
ИНН	
Идентификатор группы ККТ	
Логин	
Пароль	
Ставка налога	
Система налогообложения	
URL	
Наименование товара	
E-mail по-умолчанию	
Версия ФФД	1.0
<input type="checkbox"/> ОФД включена	
<input type="checkbox"/> Фискализировать по предавторизации	

5. Fill in the fields using the table below.

Do not specify actual data to connect to the fiscal data operator in the test personal account! If you do so, test payments will be registered with the fiscal data operator as if they were real. After entering the data into the live personal account – check that they are valid and saved correctly.

Configuration	Description
Merchant login	Allows you to select the merchant's login in the payment gateway system from the drop-down list (if there is only one login, their login will be substituted automatically).
